## Travel Tales

**Special milestone** — Seated, former worshipful master of the Paulsboro Masonic Lodge 262 ('75 and '84), Martin Donald Montgomery received a pin and certificate from the Grand Lodge in recognition of his 50-year membership.

Currently a Deptford resident, Montgomery entered the lodge in 1966. Former Paulsboro master Fred Link ('77) made the presentation. He also delivered Montgomery a copy of The Record Today.

**A car-guys holiday** — Walt Quint of West Deptford and Marc Kamp (PHS '62) of Paulsboro took a nine-day auto related road trip from Aug. 15 to Aug. 23, visiting 11 museums and attending the Woodward Dream Cruise. Located in the suburbs of Detroit, the cruise is the country's largest car cruise

with an estimated 45,000 cars and 1.2 million spectators a year.

On their way to Detroit, Quint and Kamp visited the Auburn Cord Duesenberg Museum, the National Auto & Truck Museum and the Early Ford V8 Museum in Auburn, Ind., the Studebaker Museum in South Bend, Ind., the Gilmore Museum in Hickory Creek, Mich., and the Ypsilanti Auto Heritage Museum in Ypsilanti, Mich.

On the way home, they visited the Henry Ford/Greenfield Village Museum and the Automotive Hall of Fame in Dearborn, Mich., and the Rock & Roll Hall of Fame and Museum, the Great Lakes Science Center, and the Crawford Auto & Aviation Collection in Cleveland, Ohio.

Quint and Kamp traveled 1,766 miles and took about 4,500 photos. They saw over 2,000 vehicles in museums.

Quint stands in front of the Early Ford V8 Museum in Auburn, Ind. Below, he and Kamp pose in front of the Studebaker Museum in South Bend, Ind.

**Spectacular views** — Left to right, Chris and Sue Corson of South Harrison Twp. and Janice DeVault Gibson (PHS '63) and her husband, Ward (PHS '64), of Mickleton stand in front of the Margerie Glacier with their copy of The Record Today. The Margerie is located in Glacier Bay National Park and Preserve in Alaska. It is considered an active glacier, which calves (breaks off) great chunks of ice that come crashing down into the bay. While the couples were visiting the area in May, they saw more than a dozen calvings. Glacier Bay includes 16 tide-water glaciers and is part of a 2.5 million-acre World Heritage site protected by UNESCO (United Nations Educational Scientific and Cultural Organization).
