## Better Schools For a Better Paulsboro

**THE MISSION** of the Pegasus Education Foundation is to enhance and enrich teaching and learning in the Paulsboro Public Schools and to help prepare and inspire the academic pursuits of all students from preschool through graduation. The Foundation is a 501(C)(3) not-for-profit organization, and is separate from the school district but exists for the sole purpose of providing resources to maintain and improve school programs. The Foundation coordinates fundraising, advocacy, institutional partnerships, and volunteer efforts for education-related initiatives aimed to benefit students in Paulsboro's Public Schools. The Foundation provides grants to help support projects identified as priorities by the district, and engages the community-at-large and alumni for the purpose of providing additional financial resources to the school district. The Foundation may also help secure support through state and federal grants, as well as other funding opportunities.

**GOAL: SUPPORT OUR STUDENTS AND COMMUNITY** Our Paulsboro Public PreK-12 Schools offer benefits that will continue to be fostered, including:

- A sense of pride, identification, and belonging
- An attitude and sense of ownership and involvement for students, parents, teachers, administrators, and community residents
- An atmosphere of personal relationships, where teachers, parents, administrators, students, and citizens are all vested in the success of the school as a valued institution of community
- An ethos of team, discipline, and hard work

We are eager to bring to life new academic and applied offerings to students and families seeking high-quality academic programs. Whatever post-high school steps students choose—college studies, skilled trades, military service, or entrepreneurship—the goal of the Pegasus Education Foundation is to position them for success.

**A PLAN FOR TRANSFORMING OUR SCHOOLS** Developing a PreK-12 STEAM Academy will make for a more competitive educational choice, revitalize our public school system, and support and enhance our community. STEAM education integrates Science, Technology, Engineering, Fine Arts, and Mathematics to prepare children to succeed in the increasingly competitive world economy. But we—the Pegasus Education Foundation and Paulsboro Public Schools—can't do this alone. We need your support to nurture the STEAM Academy initiative. We invite you to become a proud supporter of the Pegasus Education Foundation. Like all nonprofit organizations, we depend on donations from private citizens and businesses to continue our work.

For details on types of donations, as well as how to donate, please visit [www.paulsboroeducationfoundation.org](http://www.paulsboroeducationfoundation.org)
